

Composite Doors

The Royale Collection

High security, energy efficient composite entrance doors brought to you by Royale

Royale
Collection

Welcome Home

If you want your property to present the right first impression every time, the Royale Collection of entrance doors can help. Each one of our products is designed and constructed with the utmost care, while the attention to detail demonstrated by our installers is second to none.

To give you that extra peace of mind we back our promises with standard comprehensive guarantees. First impressions count, so allow your home to blossom with one of Royale's composite entrance doors.

Royale Composite Doors offer a perfect solution.

Our composite doors are made from fibreglass with steel reinforcement and a rigid, high density, energy efficient polyurethane core, whilst giving you the appearance of a solid timber door.

This innovative man-made material is lightweight, yet extremely strong. It isn't prone to significant expansion and contraction as the temperature varies with the weather, so composite doors will never warp or twist. They will never rust, flake or peel either, so you never need to repaint them.

The Royale Collection A better choice for your home

The composite doors within this brochure are engineered using modern materials that offer many practical benefits, ensuring an entrance of the highest quality that will last for years.

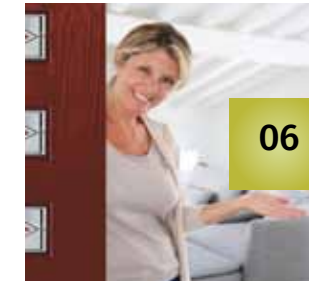

Each door is low maintenance and does not require labour intensive painting or varnishing.

Available in a choice of colours, the range also offers benefits in terms of security, weathering and energy saving.

THE ROYALE COLLECTION

Contents

06

Contemporary

Modern living dictates modern styles, a contemporary composite door is guaranteed to impress.

36

Country Cottage

If you live in the more rural areas, our Royale country cottage range will beautifully complement your home.

18

Traditional

We have a number of stunning period designs with each having its own distinct look.

42

Decorative Glass

The decorative glass designs in this brochure combine great aesthetics with high-performance.

32

Victorian

The Victorian front door includes stylish panelling to create a beautiful finish for your home.

44

Door Furniture

No matter what type of door entrance you want to create, we will have something to suit your needs.

The Royal composite door is carefully finished in the UK, every door is uniquely altered to suit the individual requirements of the homeowner.

The Royale collection offers 22 door styles and many decorative Glass options, combined with carefully chosen colour finishes there are literally hundreds of combinations available.

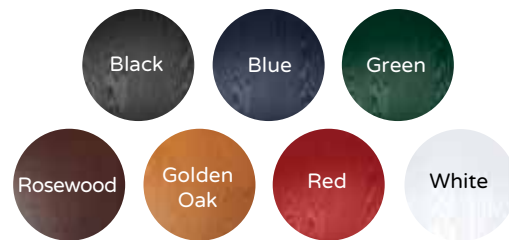

Our Royale door is a combination of traditional looks and advanced manufacturing techniques. Although looking like a traditional timber door, our composite doors are manufactured using grained GRP skins with a composite core that will stand the test of time, reduce your energy bills and continue to look stunning for years to come.

Choosing the right Colour

The colour of your front door can say a lot about you and your house and is an important exterior design decision. Whether the colour of your door makes a bold statement or is chosen to blend in with the rest of your street, door colours can make or break the all important first impression of your home and it's vital to choose carefully.

Standard Colour Collection

Unique Colour Collection

A choice of 18 colours are available to choose from.
If you need help choosing a colour just give us a call.

Door colours shown in this brochure are for guidance only. Due to the nature of material, batch and print restrictions, there may be a difference between them which is unavoidable and for which we cannot accept any liability.

Door Structure

Our composite doors are made from fibreglass with steel reinforcement and a rigid, high density, energy efficient polyurethane core, whilst giving you the appearance of a solid timber door.

Door Furniture

On page 44 you will find the furniture section where you can choose from contemporary or traditional ironmongery in 8 different suited matching colours.

In our opinion, we have chosen the best looking door hinge on the market today. The dynamic F2D hinge is aesthetically pleasing to the eye and available in many different colours.

Colour Express

The door outer frame is available in White, Rosewood and Golden Oak as standard for all our Classic Chamfered Suite.

For the 'Encore' Fully Sculpted Suite, the unique colours extend to 9 variants inside or out.

Please see your installer for further details.

Energy Efficiency

Modern composite doors combine great looks and high-performance, with strength, low maintenance and probably, most important of all, achieve superb energy efficiency.

As energy costs continue to rise, choosing a door that keeps in the heat and keeps out of the cold is now more important than ever – and composite doors are the most energy efficient on the market today. The performance of the door is achieved by combination of latest technologies which include the glass elements.

The decorative glass designs in this catalogue combine great aesthetics with high-performance, by using leading glass producers like Pilkington and Saint-Gobain. Low-e glass combined with Argon gas in the cavity reduce the amount of heat loss through the glazed area. All our units are also sealed using warm edge spacer technologies to reduce the heat transfer at the edges of the glass, this in effect allows the unit to be 950x less conductive.

All units are made with toughened glass to comply with EN12150, the international standard for safety glass. All units are manufactured to the EN1279 standard for quality of seal and life expectancy and are backed by a manufacturer's warranty of 10 years.

Take a closer look at our Glass

Royale have added a complete new library of modern and Classic Triple glass designed to complement all new the door styles

Unique Glazing

For a more traditional line in glass the Royale brand has brought you an exciting combination of brass/zinc, crystal, fusion, etch and overlay glass art.

Stunning visual effect with multiple glass textures and bubbles, encapsulated inside a glazed unit for easy cleaning. Contemporary glass designs using fused glass or clear bevel elements. Glass bevel effects beautifully reflect the light whilst fine lines and hand painting allows for very intricate designs.

Dual Aspect Glazing

Dual Aspect decorative glass is a brand-new patented technology that allows production of elaborate crystal cut effect and coloured decorative glass art at affordable prices.

The deeply embossed backing textures offer very good levels of privacy with each decorative panel capable of withstanding extreme temperatures up to 60-80°C. Vibrant yet subtle coloured glass tiles can be combined with crystal cut effect, designed to complement (not exactly match) your composite door. Each decorative panel is made in the UK and supports British manufacturing.

Document Q

Not all glass styles are available for Document Q Compliance. Please see your installer for further details.

Royale Decorative Glass Options

PARIS

Crystal clear luxury faceted bevels that create prisms of light to dramatic effect. Deep cut bevels encapsulated within the insulated unit. Laminated to the inner glass pane offering far greater levels of security to your entrance door.

ELIPSE

The 'Elipse' glass is designed for those wanting a clean and classic look. The timeless design combines a lead effect with an etched background offering high levels of obscurity.

DAVENTRY

Patented glass technology that combines traditional cut glass effects with a modern glass Fusion tile as a stunning centre piece. The vibrant glass tiles are available in a choice of black, blue, red or green to complement your choice of door colour.

INFINITY

Combining black lead effects with a stylish sandblast backing and deeply embossed 'crackle' texture. This decorative design is encapsulated between two panes of safety glass, the combination of effects offers high levels of privacy.

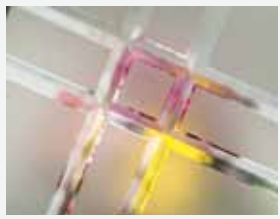

SIMPLICITY TRIPLE AND ELEGANCE TRIPLE

Both Simplicity Triple and Elegance Triple have proven to be hugely popular designs. A combination of textured, hand cut polished bevelled glass which sparkle in the sunlight. Simplicity Triple is available with either Brass or Zinc came options.

MODENA TRIPLE

A modern twist on a traditional technique, Modena Triple combines hand cut textured glass pieces, contemporary fused glass elements and polished zinc coming.

ETCH ART LINEAR

Contemporary glass designs using fused glass or clear bevel elements. Dual glazed construction so you can touch the glass elements. It is not possible to produce matching side lights or top lights.

ETCH ART MURANO

Combining etched glass with hand-made fused glass elements, our Fusion Art range is a truly modern decorative glass option. Available in 5 colours to complement or contrast with the door colour: Black, Blue, Green, Purple and Red.

WESTMINSTER GLASS

The deeply embossed backing textures offer very good levels of privacy. Vibrant yet subtle coloured glass tiles can be combined with crystal cut effect, designed to complement your composite door.

Glazed toplights and sidelights

The Royale collection of composite doors offers the option of having a glazed toplight or sidelights.

Please talk to your Royale specialist to find which option best suits your home. Size restrictions apply to composite sidelights.

ROYALE EXCLUSIVE

The 'Royale Exclusive' panel is the most luxurious glass within our portfolio. It has been painstakingly commissioned by glass craftsman exclusively for us and offers opulent clear cut bevels.

TEXTURE GLASS RANGE

Texture glass offers privacy and style throughout the home. All are available toughened or laminated for safety and security. Pilkington gives you no fewer than 18 different textured glass designs, together with our premium range of etched glass. See your installer for further details.

ETCH ART GRIDLITE

Simulated divided lights create the look of individual panes of glass. Selectively etched panels ensure privacy without sacrificing natural light.

Lincoln, Wolesley and Jensen.

Door Furniture

Maybach Mulberry with Contemporary lock and long handle

Make a statement with a modern bar handle. Available in a range of lengths, these handles complement the mid-point locking position of the Contemporary lock and ooze style and quality with their stainless steel construction. In addition to looking great these handles and the ease of operation are available fitted inside and out, or to the outside only.

Heritage Lock

The Heritage lock also features the slam shut locking, but replaces the contemporary bar handle with a traditional finger pull and thumbturn escutcheon plate. For example see page 30.

Available in PVD chrome, PVD brass and satin chrome finishes.

*Minimum door width to accept the Heritage Lock is 870mm overall.
