

SUNGUARD® SUPERNEUTRAL SN 62/34

High Selective solar protection on neutral looking glass

Architects and owners regularly choose coated glass products that offer very high natural light transmission while ensuring energy savings and solar protection. SunGuard® SN 62/34 meets these requirements. This multifunctional coating minimises the need for artificial light and offers excellent solar protection combined with outstanding thermal insulation.

- **Excellent selectivity: combining high solar protection with a high light transmission**
- **Sophisticated neutral reflected and transmitted colour, with available matching spandrel**
- **Ideal for fully glazed façade and roof glazing**
- **Available on laminated and acoustic laminated glass for more security and comfort**
- **Heat-treatable (HT) and annealed glass with matching appearance**

Visible light				Solar energy			Solar factor (g) EN 410 [%]	U-value (EN 673)	
Transmission [%]	Reflection outside [%]	Reflection inside [%]	Colour rendering index	Direct Transmission [%]	Reflection outside [%]	Absorption [%]		* Air Krypton 90% [W/m²K]	Argon 90% [W/m²K]
Double glazing: 6-16-4, SunGuard® SuperNeutral on surface #2.
